

More than 60% of our business comes from repeat customers.

Hear what Adams Design Construction customers think...

When I first used Adams Design Construction in the mid 1980's for a commercial project, I had no idea they would still be my choice over twenty years later. To this day they handle all of my commercial and residential projects, from building cross-overs between buildings to finishing the interior of a playhouse. It's a family business with a staff of experienced, knowledgeable people who do business the way we expect it here in Wisconsin. My only reluctance in offering a testimonial is that I'm divulging one of my best kept business secrets.

We gutted our entire kitchen and removed several walls creating a great room. During this extensive project Ken answered our phone calls, problem solved with us and made sure things were done on time and within the budget. The subcontractors he used were very professional and fast - They always made a point of communicating with us and clarifying things before moving ahead. Their skillful work has transformed our tired old ranch into a lovely warm and welcoming home.

We have had Ken do 4 projects for us over the last 17 years, including completely re-designing and renovating our home. We can now plan to stay in the neighborhood and home we love. We can't imagine contracting with anyone else.

I used Adams Design Construction for remodeling my kitchen and bathroom, and to design and build a screened-in porch. They did a great job. I was really impressed with their attention to detail and the care they took in their work.

My guests couldn't believe that the kitchen trim and Victorian fireplace wasn't the original handiwork of the 1870's because you matched it so well. Our bathrooms are stunning and the porches add so much charm!

Our newly designed and built second story porch is beautiful! We worked with Ken & Pam to design a porch that would fit our contemporary house and allow visual access to the garden below. The result is exactly what we wanted. The team who did the construction were real craftsmen, had an eye for detail, and were careful not to disturb my precious plants.

I highly recommend Ken to others doing remodeling. We had him design and build a back porch for us, had some ideas re what we wanted and got a GREAT new summer room.
